

MISSION STATEMENT

ISI (Insight Systems International Corp.) will provide its customer and client, both external and internal, with Total Quality Excellence of product and service that fully meets their expectations in every aspect and is equal or superior in value to that which can be obtained elsewhere.

We will strive, at all times, to be the most competitive, high quality material supplier or System Integrator in the industry where we do business, and thus generate the necessary revenue to satisfy the aims and aspirations of our stakeholders and the community in which we operate.

We will conduct our business with total integrity, dedication and professionalism anytime and at all time, so that all **ISI's** customer and client gets the value for their money.

VISION STATEMENT

ISI Corp. envisions itself to be one of the premier providers of Structured Cabling Systems and as a leading Systems Integrator in the Philippines, giving their business clients access to quality installation and services that are efficient, reliable, flexible and affordable.

ISI

ISI Corp. is a Filipino owned corporation with the desire to actively participate in the supply, installation, test and commissioning of *special requirements* by customers on any *materials* for use in any projects within or outside the Philippines covering *Structured Cabling, Telecommunication and Data communication Sectors*.

Customers and Clients working on the American, European, Australian & Japanese Specifications or ISO 11801 & EIA/TIA 568A standard, can depend on **ISI's** *price, availability, technical assistance and logistical support*.

Our customers and clients are supported with a highly experienced import service staff-project team, material traffic management, SGS pre-importation inspection coordination, import-forwarding documentation as well as enhanced engineering & installation team in recognition of the more critical logistical and scheduling aspects of any construction projects.

Additionally, **ISI Corp.** is able to offer its customers and clients other "value added" support by our staff such as the following;

- *Analysis of drawings or material specifications*
- *Review of product in compliance with specifications*
- *Equipment or product recommendation*
- *Material packaging*
- *Engineering and technical coordination or support*

ISI

ISI offers a unique service to companies where a single qualified source of supplier is considered more beneficial and cost effective than multi-vendor sourcing and expediting all items on a Structured Cabling project.

Accordingly, we offer a **TURNKEY SUPPLY & INSTALLATION SERVICE** which is a guaranteed lump sum price for all materials taken off from the plans and specifications on an FOB Sales basis.

Our **TURNKEY SERVICES** include.....

- *Take off on bills of material*
- *Manufacturer's drawing and/or catalogue/technical data*
Submission for approval and review for correctness, constructive
and compatibility with total project requirement/specifications
- *Systematized processing and expediting*
- *Coordination of delivery and Installation*
- *Test commissioning and proper project documentation*
- *Logistics*
- *Liaison and communication with owner's Project engineer or*
Company's Architect all throughout the project schedule

ISI's clientele can depend on our management/staff to be professional, high integrity, dependable, management control and personal involvement along with specialized knowledge and experience in providing Structured Cabling System and Electrical Works for projects, or other related products and services. These include, but not limited to the following:

- CAT 5e, 6, 6A UTP/STP/SFTP 4-PAIR GAUGE 24 AWG CABLE
